

K&E

Made in USA

*Congratulations* on your Kaspar & Esh bracelet. We welcome you to a tradition that began in New York City in 1916. Please inspect your bracelet closely and note how the links are assembled. Our proprietary design ensures the most durable and comfortable junction between links.

There is no better way to build a bracelet.

### Tube and Ear Assembly

Additional links can be installed in store by your jeweler. Once your bracelet is complete, your jeweler will return it to our factory so that we can install 14K gold rivets and refinish it to our uncompromising standards.

## Your bracelet style

---

typically requires

\_\_\_\_\_ links  
and a clasp to  
complete a  
finished length  
of 7¼ inches.
